

# HERE'S TO CHOICE

Introducing the HTC One® family of devices.

## Premium Design

Stunning design in a full metal body construction, tapered edges and HD screen give the HTC One family visual appeal.

## HTC UltraPixel Camera

Bigger is better when it comes to pixels. HTC's UltraPixel camera allows each pixel to capture 300% more light allowing better low light images, and HTC Sense™ enables the sharing of 30 second Video Highlights, created from your image library, and set to a soundtrack.

## HTC BoomSound™

Dual front-facing speakers and dedicated amplifiers power HTC BoomSound technology.

## HTC BlinkFeed™

Change with the way you consume content. Build a personalized home screen populated with information and updates of your digital feeds including news, entertainment and social media.
